

Track every asset. Powered or **not**.

SureCam Asset Tracking puts every vehicle, trailer, and piece of equipment on a single live map — so you can cut theft, recover lost gear fast, and get more from the assets you already own.

SEE EVERYTHING IN ONE PLACE

One live map for **every asset you own**

Locate every asset

Vehicles, trailers, generators, light towers, and containers on one live map. No more calling around to find the gear your crew needs.

Deter theft, recover faster

Get instant alerts when an asset moves after hours or leaves a set area, then share its live location to recover it fast.

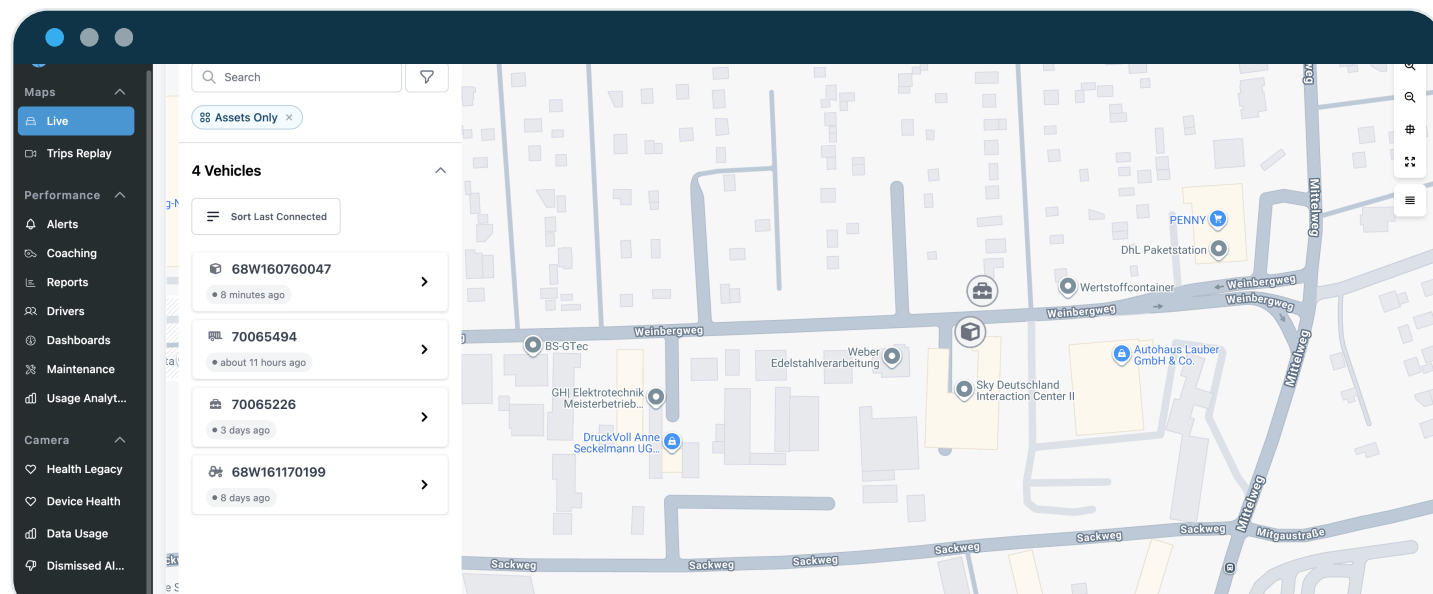

Turn location into utilization

Usage and dormancy reporting shows which assets to move, rent out, or retire — before they drain your budget.

SEE IT IN ACTION

Asset Tracking Live

WHAT YOU CAN TRACK

Powered or not, it's on the map

From vehicles to unpowered equipment, SureCam tracks the high-value assets your operation depends on — all in the same platform as your cameras and GPS.

Vehicles

Trailers

Generators

Light Towers

Containers

Tool Carts & More

BUILT TO PROTECT & OPTIMIZE

Stop losing assets, time & money to guesswork

Geofence alerts

Draw zones around yards and sites and know the moment an asset leaves.

After-hours movement

Get flagged instantly when equipment moves outside working hours.

Recover stolen gear fast

Share live location with your team and law enforcement to recover it.

Utilization & dormancy

See what's working, what's idle, and right-size the fleet you own.

Powered & unpowered

Track equipment with or without a power source, on-site or on the road.

Full asset history

A complete location and usage record for every asset you own.

ONE PLATFORM, NO MORE SPREADSHEETS

Assets, vehicles, and video — in a single SureCam login.

Manage equipment right alongside your vehicle GPS and camera footage. Fewer tools, less manual tracking, and one place to see your entire operation.
